

Q1. What is a file in a computer system?

- a. A storage device
- b. A collection of program instructions or data stored as a single unit
- c. A collection of folders
- d. A software application

Correct answer: b

Q2. One of the following is NOT a feature of an embedded computer:

m

- a. Often used in businesses that manage large amounts of data
- b. A specially designed computer chip that resides in another device
- c. Typically does not receive input from the user
- d. A self-contained computer device with its own programming

Correct answer: a

Q3. How do computer viruses mainly spread?

- a. When people open infected files
- b. By taking advantage of weak security
- c. By using secret codes to hide
- d. By spreading automatically over networks

Correct answer: a

Q4. What do you call a procrastinator who tends to take on too many commitments to avoid disappointing others?

- a. Worrier
- b. Crisis Maker
- c. Dreamer
- d. Overdoer

Correct answer: d

Q5. iCloud is an example of:

- a. Email address
- b. Search engine
- c. File storage service
- d. Web browser

Correct answer: c

Q6. To protect your computer from viruses you need to:

- a. Keep your operating system up to date
- b. All answers are correct
- c. Use a secure network
- d. Install antivirus software

Correct answer: b

Q7. A ____ is a portable computer that has a keyboard, monitor, and other devices integrated into a single compact case.

- a. Desktop
- b. Laptop
- c. Portable book
- d. Book

Correct answer: b

Q8. E-commerce is the process of storing files and programs online.

- a. False
- b. True

Correct answer: a

Q9. It is advisable to leave your phone on and easily accessible during lectures for notifications.

- a. False
- b. True

Correct answer: a

Q10. Which of the following is the typical Top-Level Domain (TLD) used by networking organizations?

- a. .edu
- b. .gov
- c. .mil
- d. .net

Correct answer: d

Q11. A file with the name "aFile.docx" represents a word processing document.

- a. True
- b. False

Correct answer: a

Q12. In binary language every letter on the keyboard is represented by a number of bits.

- a. True
- b. False

Correct answer: a

Q13. A program must be loaded into RAM before it can run.

- a. True
- b. False

Correct answer: a

Q14. The RTOS is also known as:

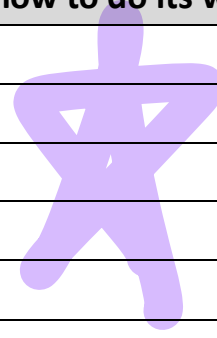

- a. EDS
- b. Real-time embedded OS
- c. Control system OS
- d. Embedded systems

Correct answer: b

Q15. _____ is the set of instructions that tell the computer how to do its work.

- a. Software
- b. Hardware
- c. Memory
- d. Manual

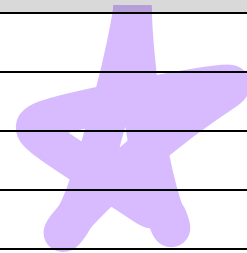

Correct answer: a

Q16. If a student spends 10 hours in class each week, how many hours should they dedicate to studying each week?

- a. 20 to 30 hours
- b. 30 to 42 hours
- c. 20 to 24 hours
- d. 24 to 30 hours

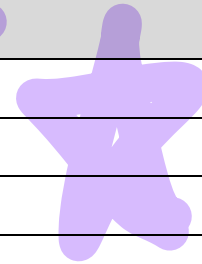

Correct answer: a

Q17. The software that is used to create and edit documents is:

- a. Presentation software
- b. Spreadsheet software
- c. Database software
- d. Word processing software

Correct answer: d

Q18. One of the following is NOT a specification of solid-state drives (SSDs):

- a. SSDs require little power
- b. SSDs are not efficient
- c. SSDs have no moving parts
- d. SSDs run without noise

Correct answer: b

Q19. What distinguishes a Wide Area Network (WAN) from other types of networks?

- a. It is meant for connecting devices and peripherals
- b. It covers larger geographic areas
- c. It connects computers within one country only
- d. It is used for personal devices only

Correct answer: b

Q20. The software that a computer can NOT operate without is the:

- a. Application program
- b. Operating system
- c. Utility program
- d. Word processing program

Correct answer: b

Q21. One kilobyte (KB) = 1024 bytes.

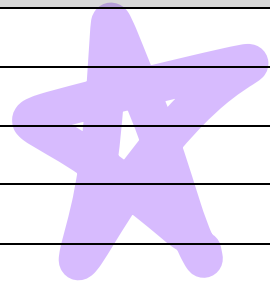

- a. True
- b. False

Correct answer: a

Q22. A Windows utility program that removes unnecessary files from a hard drive is:

- a. Norton Antivirus
- b. Task Manager
- c. Disk Cleanup
- d. Disk Defragmenter

Correct answer: c

Q23. Android operating system is not a Microsoft product.

- a. False
- b. True

Correct answer: b

Q24. Which of the following is the most popular web browser?

- a. Firefox
- b. Microsoft Edge
- c. Safari
- d. Google Chrome

Correct answer: d

Q25. Smartphones consist of the following component(s):

- a. Memory
- b. Input and output devices
- c. Processor
- d. All answers are correct

Correct answer: d

Q26. Type of computers that is used in weather forecasting models and systems:

- a. Workstation
- b. Mainframes
- c. Supercomputers
- d. Embedded computers

Correct answer: c

Q27. In traditional databases, the table is:

- a. A group of related fields
- b. A group of related records = Table
- c. None of the answers are correct
- ~~d. A data category = field~~

Correct answer: b X

Q28. What type of spyware specifically monitors keystrokes?

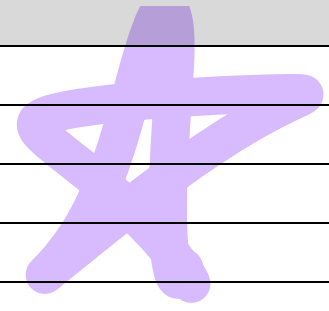

- a. Ransomware
- b. Adware
- c. Trojan horse
- d. Keystroke logger. *مراقب النقرات*

Correct answer: d

Q29. In a wireless network, when is a cable still required?

- a. When devices are close to each other
- b. When using mobile hotspots
- c. To connect laptops to the Wi-Fi
- d. To connect the wireless router to the network

Correct answer: d

Q30. What is the primary role of the CPU in a computer?

- a. Displaying images
- b. Storing information permanently
- c. Processing instructions
- d. Controlling internet connections

Correct answer: c

Q31. Leaving a job because it introduces new technology or responsibilities that you're unfamiliar with is an example of:

- a. Staying in a new situation without adjusting skills
- b. Quitting from the situation
- c. Changing and adapting your old skills to better fit the new demands
- d. Modifying your skills to get by in the new situation

Correct answer: b

Q32. Using syllabi helps in planning effectively for the semester.

- a. False
- b. True

Correct answer: b

Q33. How should you organize your day?

- a. Around what moves you closer to your goal
- b. With flexibility
- c. All answers are correct
- d. Around entertainments

Correct answer: a

Q34. Considering Bloom's Taxonomy, recalling the key points of a topic is related to the "Understanding" level of learning.

a. False

b. True

Correct answer: a

Q35. What is recommended for summarizing class work effectively?

a. Summarizing weekly

b. Summarizing before exams only

c. Summarizing daily

d. Summarizing when you have time

Correct answer: c

Q36. Using phishing filters can help protect against online scams.

a. False

b. True

Correct answer: b

Q37. Critical thinking allows us to evaluate facts before making decisions.

a. False

b. True

Correct answer: b

Q38. Networking enables multiple devices to share an Internet connection.

a. False

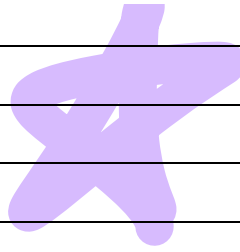

b. True

Correct answer: b

Q39. Which group typically benefits from the information collected by cookies?

- a. Email service providers
- b. Consumers directly
- c. Website owners and companies
- d. Internet access providers

Correct answer: c

Q40. Virtual learning is an example of using AI in education. How do virtual language instructors assist in learning?

- a. They provide only written lessons
- b. They teach only vocabulary words
- c. They correct grammar and suggest new words
- d. They conduct exams

Correct answer: c

Q41. Microsoft 365 is an example of commercial application software.

- a. False
- b. True

Correct answer: b

Q42. Fatima struggles to understand the English class because she is busy sending messages to her friends. Which does this represent?

- a. Emotional distraction
- b. Electronic distraction
- c. Cultural distraction
- d. Physical distraction

Correct answer: b

Q43. Which of the following statements is NOT correct?

- a. The increased use of electronic media has made enforcing copyright laws easier.
- b. Intellectual property is protected by copyright laws, patents, and trademarks.
- c. Intellectual property is the result of someone's creativity and knowledge.
- d. All answers.

Correct answer: a

Q1. The way our body responds to external and internal pressure is known as:

- a. Disorganization
- b. Stress
- c. Self-management
- d. Prioritization

Correct answer: b

Q2. One of the following is an example of a utility program:

- a. UI
- b. Norton Antivirus
- c. Safari Browser
- d. None of these

Correct answer: b

Q3. What is a file in a computer system?

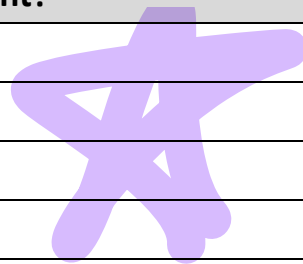

- a. A storage device
- b. A collection of program instructions or data stored as a single unit
- c. A group of folders
- d. A software application

Correct answer: b

Q4. What does the file extension .jpg represent?

- a. A text file
- b. An image file
- c. A video file
- d. An audio file

Correct answer: b

Q5. A type of computer which is specially designed computer chip that resides in another device:

- a. Mainframe
- b. Workstation
- c. Embedded computer
- d. Supercomputer

Correct answer: c

Q6. Critical thinkers go beyond memorizing and repeating situations. They analyze and apply knowledge in different situations.

- a. True
- b. False

Correct answer: a

Q7. One of the following is a benefit of note-taking:

- a. Helps retain and review key points
- b. Increases stress during exams
- c. Wastes study time
- d. None of these

Correct answer: a

Q8. Ethics are written standards designed to apply to everyone.

- a. True
- b. False

Correct answer: a

Q9. The formal written standards designed to apply to everyone is known as:

- a. Ethics
- b. Property
- c. Technology
- d. Law

Correct answer: a

Q10. Which of the following statements is NOT true about P2P networks?

- a. All nodes are equal peers
- b. They rely on direct client/server communication
- c. They can lead to more efficient use of resources
- d. Nodes may share resources and data directly

Correct answer: b

Q11. A program must be loaded into ROM before it can run.

- a. True
- b. False

Correct answer: b

Q12. What role does antispyware software play?

- a. Identifies and removes unwanted programs
- b. Protects against all threats
- c. Increases internet speed
- d. Manages data backups

Correct answer: a

Q13. Which of the following is NOT a suggested method to avoid online annoyances?

- a. Becoming aware of cookies policies
- b. Using spam filters
- c. Creating a second email for forms and shopping
- d. Keeping all activities on a single email address

Correct answer: d

Q14. One of the computer's functions is input, which saves data and information in the computer.

- a. True
- b. False

Correct answer: b

Q15. What approach is suggested for managing study time effectively?

- a. Rate necessity and allocate time accordingly
- b. Start studying a week before tests
- c. Avoid planning
- d. Guess workload based on friends

Correct answer: a

- a. It is a personal activity that can vary from person to person
- b. It is a standardized process
- c. It is only done during exams
- d. It is a group activity

Correct answer: a

Q17. What is a characteristic of unshielded twisted-pair cables?

- a. They use glass fibers for transmission
- b. They don't include copper wires
- c. They are made of single copper wire surrounded by plastic
- d. They consist of twisted copper wires surrounded by plastic

Correct answer: d

Q18. What is the risk associated with providing your email during online shopping?

- a. Losing access to your account
- b. Being subjected to spam
- c. Gaining access to rewards programs
- d. Understanding competitors' offers

Correct answer: d

Q19. The first type of portable computer was:

- a. Desktop
- b. Tablet
- c. Laptop
- d. Smartphone

Correct answer: c

Q20. How do embedded computers typically operate?

- a. They should be always connected to the Internet
- b. They work independently with their own programming
- c. They require connections with servers
- d. They are keyboard and mouse-based

Correct answer: b

Q21. You cannot connect a printer to a computer network.

- a. True
- b. False

Correct answer: b

Q22. What role do clients play in a client/server architecture?

- a. They are responsible for data storage
- b. They request information or services from the server
- c. They manage the network infrastructure
- d. They provide services to other computers

Correct answer: b

Q23. Considering Bloom's Taxonomy, when you are able to make practical applications of learning, it means you have reached which level?

- a. Understanding
- b. Remembering
- c. Applying
- d. Analyzing

Correct answer: c

Q24. Which of the following is NOT recommended in your study space?

- a. Choosing a quiet environment
- b. Using the space for multiple activities
- c. Creating a regular study center
- d. Organizing files digitally

Correct answer: b

Q25. Which of the following is a primary function of an operating system?

- a. Allowing applications to interact with the CPU
- b. Managing tasks and scheduling processes
- c. Controlling hardware
- d. All answers are correct

Correct answer: d

Q26. Which of the following is used to organize files on a computer?

- a. Folder
- b. Program
- c. Browser
- d. Operating system

Correct answer: a

اتمنى لكم كل التوفيق والسداد في الاختبارات واسأل الله ان ينعم عليكم بالدرجات العليا.
-اخوكم: أبو طلال.
