

Computing Essentials

Meeting 1,2 and 3

Members دوافير

01.3.2025

This work dedicated to our MTA-TU170 Heros!!

Collected by Ibrahim Mohamed

1. One of the computer's functions is output, which manipulates and calculates data

☒ False☐ True

2. One of the computer's functions is to process, which saves data and information in the computer

☐ True☒ False

3. One of the following output devices gives a hard copy of data is:

☐ Speakes☐ Printer and Projector☒ Printer☐ Projector

4. To play a game on a computer you need _____

☐ software☐ keyboard☐ hardware☒ software and hardware

5. Supercomputer is the fastest

- ☒ True ☐ False

6. The largest network of the world is:

- ☐ USB ☐ Facebook
☒ Internet ☐ Web

7. Which sensor in a phone is used to determine the phone placed next to your ear

- ☐ Thermometer sensor ☐ Pedometer sensor
☒ Proximity sensor ☐ Magnetometer sensor

8. Which sensor in a phone is used by compass apps

- ☐ Thermometer sensor ☐ Pedometer sensor
☐ Fingerprint sensor ☒ Magnetometer sensor

9. Which sensor in a phone is used to record the number of steps taken while you carry the device

- ☒ Pedometer sensor ☐ Fingerprint sensor
☐ Magnetometer sensor ☐ Thermometer sensor

10. The address that specifies the location of the resource on the web is:

- ☐ Hyperlinks ☐ Hypertext Markup Language (HTML).
☐ Top-Level Domain (TLD). ☒ Uniform Resource Locator (URL).

11. In the URL "https://www.arabou.edu", which part represents the protocol?

- ☒ https ☐ https://www.arabou.edu
☐ www.arabou.edu ☐ edu

12. Which of the following is the typical Top-Level Domain (TLD) used by commercial websites?

- ☐ org ☐ mil
☒ com ☐ edu

13. The Top-Level Domain of military websites is:

- ☐ gov ☐ net
☒ mil ☐ com

14. For browsers to connect to resources on the Internet, the location of the resources must be specified through addresses called _____

- ☐ Hypertext Markup Language (HTML) ☐ Top-Level Domains (TLDs)
☐ Domain names ☒ Uniform Resource Locators (URLs)

15. Hospitals using 3D printing for

- ☐ wasting money ☐ help doctors diagnose unfamiliar conditions
☐ to integrate into patient systems ☒ developing inexpensive and stylish prosthetic devices

16. When evaluating a website's content, whether the information is correct and critically reviewed is considered part of which element?

- ☐ currency
 ☐ authority
☒ accuracy
 ☐ objectivity

17. When evaluating a website's content, the presence of a date indicating the last update is considered part of which element?

- ☐ accuracy
 ☐ authority
☒ currency
 ☐ objectivity

18. When evaluating a website's content, whether the author is an expert in the subject area of the information presented is considered part of which element?

- ☐ currency
 ☒ authority
☐ objectivity
 ☐ accuracy

19. When evaluating a website's content, whether the information is up to date is considered part of which element?

- ☐ objectivity
 ☐ accuracy
☒ currency
 ☐ authority

20. How does starting to study early impact test anxiety?

- ☒ It lowers anxiety and builds confidence
 ☐ It has no effect
☐ It increases anxiety and builds confidence
 ☐ It decreases performance

21. Feeling stress or fear before or during a test is called:

- ☐ Performance Anxiety
 ☒ Test Anxiety
☐ General Anxiety
 ☐ Exam Depression

22. If you don't prepare yourself for the exam this will lead to:

- ☒ Feeling test anxiety
 ☐ Feeling relaxed
☐ Feeling confident
 ☐ Feeling happy

23. Which of the following contribute to test anxiety?

- ☐ Fear of the consequences of performance of the test
 ☒ All answers are correct
☐ Believe in the inability to perform well on a test
 ☐ Lack of preparation for a test

24. The feeling of unease or fear about an event is called:

- ☐ Excitement
 ☐ Joy
☐ Depression
 ☒ Anxiety

25. To protect transactions in online shopping, it is NOT good to use a third-party payer

- ☒ False
 ☐ True

26. Internal Hard Disks are:

- ☐ removable.
 ☐ located outside the system unit
☒ faster than external hard disks
 ☐ connected to a USB port on the system unit

27. _____ is located outside the system unit

- ☐ internal hard disk ☒ external hard disk
☐ global hard disk ☐ universal hard disk

28. Apple MacBook Air and the Huawei Mate Book are

- ☐ Laptop ☒ Ultrabook
☐ 2-in-1 PC ☐ Chromebooks

29. The main voice recognition capability is

- ☐ records your voice ☐ capturing sound waves
☒ intelligent personal assistant ☐ speaking into a microphone

30. The motherboard of a desktop computer is located inside the:

- ☐ smartboard ☒ system unit
☐ memory board ☐ CPU

31. In binary language every letter on the keyboard is represented by one bit

- ☐ True ☒ False

32. Which of the following statements is true about smartphones?

- ☐ They have components similar to computers ☐ They are not considered computers
☐ They do not need memory to work ☒ They function exactly like desktop computers

33. In the R.E.D. Model, what does "R" stand for?

- ☒ Recognize Assumptions ☐ Respond to facts
☐ Recognize Recommendations ☐ Recognize Results

34. In the R.E.D. Model, what does "E" stand for?

- ☐ Examine Ideas ☐ Evaluate Emotions
☒ Evaluate Information ☐ Evaluate Evidence

35. In the R.E.D. Model, what does "D" stand for?

- ☐ Deliver assumptions ☐ Determine facts
☐ Draw facts ☒ Draw Conclusions

36. The study of the general nature of morals and the moral choices people make is known as:

- ☒ Ethics ☐ Technology
☐ Property ☐ Laws

37. iCloud is an example of:

- ☐ Searching engine ☐ Web browser
☐ Email address ☒ File storage service

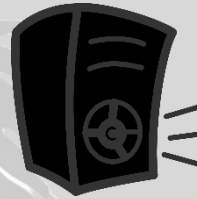

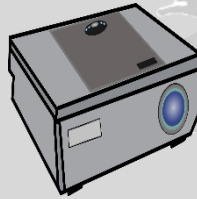

38. In this image different types of input devices are shown. The one that shows an image capturing device is

☐ Touch Screen

☒ Webcam

☐ Microphone

☐ Scanner

39. In this image different types of output devices are shown. The one that shows an audio output device is

☐ Monitor

☐ Projector

☒ Speaker

☐ Printer

40. Considering Bloom's Taxonomy, when you are able to make practical application of the information, this is related to the "Applying" level of learning.

☒ True

☐ False

41. Considering Bloom's Taxonomy, when you recall the key points of a topic, this is related to "Evaluating" level of learning.

☒ False

☐ True

42. Considering Bloom's Taxonomy, when you are able to make practical application of the information, this is related to the "Creating" level of learning.

☒ False

☐ True

43. Considering Bloom's Taxonomy, when you are able to explain the information using your own words, this is related to the "Understanding" level of learning.

☒ True

☐ False

44. Considering Bloom's Taxonomy, when you recall the key points of a topic, this is related to the "Remembering" level of learning.

☐ False

☒ True

45. One of the specifications of solid-state drives (SSDs) is:

☐ SSDs have moving parts

☐ SSDs emit huge heat

☒ SSDs run without noise

☐ SSDs are not efficient

46. Using the web wisely involves efficiently locating reliable and accurate information online.

☒ True ☐ False

47. Cheating on an exam is considered as:

☐ good behavior ☒ Unethical behavior
☐ Ethical behavior ☐ Experience

48. 1024 gigabytes (GB) are equal to one terabyte (TB).

☒ True ☐ False

49. 1024 byte is larger than 1 megabyte (MB).

☐ True ☒ False

50. One petabyte (PB) = 1024 TB.

☐ False ☒ True

51. The part of the computer that you can physically touch is called _____

☒ Hardware ☐ Program
☐ Software ☐ Application

52. Type of computers that can perform complex calculations extremely fast.

☐ Embedded Computers ☒ Supercomputers
☐ Mainframes ☐ Desktop computers

53. The IBM summit is the world fastest _____

☐ Embedded computer ☒ Supercomputer
☐ Mainframes ☐ Desktop computer

54. Why might it be beneficial to arrive early for a test?

☐ Gives you time to play games ☐ Let you study at the last minute
☒ Avoid feeling rushed and stressed ☐ It doesn't matter

55. By analyzing information rationally, critical thinking helps in making well-informed and objective decisions.

☒ True ☐ False

56. Type of computers that is used in weather forecasting models and systems is:

☐ Embedded Computers ☐ Workstation
☐ Mainframes ☒ Supercomputer

57. Which of the following effect CPU performance

☐ Internet connection ☐ Sensor quality
☒ Number of cores ☐ Screen resolution

58. If a solution of a problem doesn't work as expected, you should analyze what went wrong and try again.

☐ False ☒ True

59. Consumer-to-consumer (C2C) transactions occur when consumers sell to each other.

☒ True ☐ False

60. The spider program is part of a search engine that _____

☐ Searches the indexed data ☒ Constantly collects data on the web
☐ Pulls out relevant information according to your search ☐ Organizes the data into a large database

61. A type of computer which is self-contained computer devices that have their own programming.

☒ Embedded Computer ☐ Tablets
☐ Supercomputer ☐ Mainframe Computer

62. A type of computer which is specially designed computer chip that resides in another device.

☐ Supercomputer ☐ Mainframes
☒ Embedded Computer ☐ Tablets

63. A type of computer that can be found in many devices, such as cars, drones, and Washing machines.

☐ Mainframes ☐ Tablets
☐ Supercomputer ☒ Embedded Computer

64. A type of computer that typically does not receive input from you or interact with other systems.

☐ Mainframes ☒ Embedded Computer
☐ Tablets ☐ Supercomputer

65. RAM and ROM are two examples of temporary memories.

☐ True ☒ False

66. Which of the following is an example of unauthorized assistance during an exam?

☐ Using a calculator ☐ Underlining key points in the question
☒ Using cheat sheets ☐ Reading instructions

67. One of the following printers generates three dimensional objects:

☒ 3D printer ☐ large format printer
☐ All-in-one printer ☐ All answers are correct

68. One of the following printers generates oversize images such as posters:

☒ large format printer ☐ All-in-one printer
☐ All answers are correct ☐ 3D printer

69. Dropping a coding class because it's too difficult instead of trying to improve. This is an example of

- ☒ Quitting from the situation ☐ Staying in a new situation without adjusting skills
- ☐ Changing and adapting your old skills to better fit the new demands
- ☐ Modify your skills to get by in the new situation

70. Cloud computing refers to:

- ☐ Storing data, files, and applications on the local drives ☐ All answers are correct
- ☐ Storing data, files, and applications on the network ☒ Storing data, files, and applications on the Internet

71. Which type of tasks can robots perform in industrial?

- ☐ Customer service ☒ Repetitive tasks
- ☐ Creative tasks ☐ Cooking

72. Cloud computing refers to:

- ☐ Storing data, files, and applications on the local drives
- ☐ Access and manipulate files and applications from any laptop
- ☒ Access and manipulate files and applications from any Internet-connected device
- ☐ All answers are correct

73. Chromebook is a type of laptops that:

- ☒ Designed to be always connected to the Internet
- ☐ Focuses on offering a very thin, lightweight computing solution
- ☐ Can be converted into a tablet-like device
- ☐ All answers are correct

74. Which of the following is NOT a feature of Chromebook laptop?

- ☐ Stores documents and apps in the cloud
- ☒ Can convert into a tablet-like device
- ☐ Uses the Google Chrome OS
- ☐ Designed to be always connected to the Internet

75. The two digits that are used in binary language are 0 and 8.

- ☒ False ☐ True

76. Why are smartphones considered computers?

- ☐ Because they have a screen and a battery
- ☐ Because they can be connected to the internet
- ☐ Because they are used for making phone calls
- ☒ Because they have processing power, memory, input and output.

77. By thinking critically, we can solve problems logically and efficiently.

- ☐ False ☒ True

78. What is the main idea of the text "Adapting Old Skills to New Situations"?

- ☐ Using old skills without change
☐ Removing oneself from difficult situations
☒ Changing and modifying skills to fit new circumstances
☐ Quitting when faced with challenges

79. Text, images and videos inside a computer are represented in binary.

- ☒ True ☐ False

80. Which of the following is the default web browser in Windows?

- ☒ Microsoft edge ☐ Safari
☐ Firefox ☐ Google chrome

81. The "s" in "https://" indicates that the website is secure.

- ☒ True ☐ False

82. The following portable computer is a fully featured computer that focuses on offering a very thin, lightweight computing solution:

- ☐ Laptop ☒ Ultrabook
☐ 2-in-1 PC ☐ Chromebooks

83. What is the main function of the motherboard in a computer?

- ☒ To connect and hold the main electronic components of the computer
☐ To store files and documents
☐ To provide internet access
☐ To control external devices like printers

84. The Back End side of cloud computing _____

- ☐ is the user-facing side
☐ All answers are correct
☐ is accessed through web browsers
☒ Contains data centers and server farms globally

85. As you work toward solving problems, evaluation should be done continuously to ensure progress is moving in the right direction.

- ☒ True ☐ False

86. The device that looks like a pen and is used to draw on the iPad screen is:

- ☒ Stylus ☐ Virtual Keyboard
☐ Keyboard ☐ Microphone

87. The two digits that are used in binary language are 0 and 1.

- ☐ False ☒ True

88. The following laptop computer can be converted into a tablet-like device

- ☐ Ultrabook ☐ Laptop
☒ 2-in-1 PC ☐ Desktop

89. Critical thinking means making decisions based on assumptions.

- ☐ True ☒ False

90. Manipulating data describes a computer's ability to process data.

- ☒ True ☐ False

91. Creating computer systems that can perform tasks associated with human intelligence is known as:

- ☐ Logic intelligence ☐ social intelligence
☐ Music intelligence ☒ Artificial intelligence

92. Why is it important to perform a Post Exam Review?

- ☒ To understand mistakes ☐ To impress classmates
☐ To feel the pressure ☐ To have something to talk about

93. What do smartphones require to function properly?

- ☐ Windows operating system
☐ Touchscreen display
☒ Mobile operating system
☐ Internet connection

94. A worker struggles with new software at their job but refuses to learn it, leading to frustration and poor performance. This is an example of:

- ☐ Changing and adapting your old skills to better fit the new demands
☐ Quitting from the situation
☐ Modify your skills to get by in the new situation
☒ Staying in a new situation without adjusting skills

95. When the computer is turned off, ROM loses all of its contents.

- ☒ False ☐ True

96. Which storage device has NO spinning parts?

- ☐ CDs
 ☐ DVDs
☐ Hard disks
 ☒ USB drives

97. How does AI contribute to medicine?

- ☐ It replaces doctors
 ☒ It helps diagnose unfamiliar conditions
☐ It makes doctors more popular
 ☐ It increases hospital costs

98. How can you improve your memory according to the text?

- ☒ Notice, store and reclaim material
☐ Rely on your intuition
☐ Skip reviewing
 ☐ Study only during exams

99. What should you do after completing a test to improve performance?

- ☐ Forget about it
 ☐ Talk to classmates
☐ Immediately prepares for the next test
☒ Conduct a post exam review

100. The language of the computer is binary language

- ☐ False
 ☒ True

101. A microphone is an example of:

- ☐ Image capturing device
 ☐ Scanning device
☐ Pointing device
 ☒ Audio-input device

102. Which of the following is NOT an effective study skill for test preparation?

- ☐ Create a study environment that works for you
☐ Review your notes regularly
☒ Study only the night before the exam
 ☐ Keeping positive attitudes

Problem solving is a structured process that involves critical thinking to analyze, evaluate, and find effective solution

- ☐ False
 ☒ True

103. RAM stores permanent instructions required for the computer to start up when powered on.

- ☐ True
 ☒ False

104. What is confirmation bias?

- ☐ The process of forgetting new information quickly
☐ The ability to analyze all perspectives without bias
☒ The habit to seek out and favor information that supports our beliefs.
☐ The habit of questioning all information equally

105. Computers are excellent at processing information into data.

- ☒ True
 ☐ False

106. Critical thinkers go beyond memorizing and repeating information. They analyse and apply knowledge in different situations

☒ True ☐ False

107. Unethical behavior is described as:

- ☐ Sharing resources freely
- ☐ Following approved standards
- ☒ Not adhering to approved standards
- ☐ Acting based on personal belief

108. When shopping online, it is better to avoid non-well-known sites

☒ True ☐ False

109. The _____ is one of the factors that can determine the performance of the CPU.

- ☒ number of processing paths
- ☐ number of input devices
- ☐ number of output devices
- ☐ number of functions

110. Critical thinking means making decisions based on facts, evidence, and logical reasoning rather than assumptions

☒ True ☐ False

111. What is an embedded computer?

- ☐ A general-purpose computer used for multiple tasks
- ☐ A computer that requires user input to function
- ☒ A computer which is specially designed computer chip that resides in another device.

112. During problem-solving, continuous evaluation is necessary to ensure progress remains on the right track.

☐ False ☒ True

113. Features like GPS and digital camera that are combined in smartphones illustrate:

- ☐ bits ☐ software
- ☐ Google maps ☒ Digital convergence

114. One bit consists of a series of bytes.

☒ False ☐ True

115. Which of the following should you pay close attention to in test questions to avoid mistakes?

- ☐ long questions ☐ Historical references
- ☒ Trigger words ☐ Images

116. What does artificial intelligence primarily focus on?

- ☐ Creating advanced vehicles
- ☐ Improving the internet
- ☒ Creating computer systems that perform tasks associated with human intelligence
- ☐ Developing video games

117. Leaving a job because it introduces new technology or responsibilities that you're unfamiliar with. This is an example of

- ☐ Staying in a new situation without adjusting skills.
- ☐ Changing and adapting your old skills to better fit the new demands
- ☒ Quitting from the situation
- ☐ Modify your skills to get by in the new situation

118. It is safe to make online transactions using public computers.

- ☒ False
- ☐ True

119. Which of the following is NOT a feature of Ultrabook laptops?

- ☒ Do not offer CD/DVD drives
- ☐ All answers are correct
- ☐ Focus on offering a very thin, lightweight computing solution
- ☐ Use the Google Chrome OS

120. The board that contains the central electronic components of the computer is the:

- ☐ input board
- ☐ desktop board
- ☒ motherboard
- ☐ output board

121. The set of computer programs that enables the hardware to perform different tasks is called

- ☐ Memory
- ☐ Keyboard
- ☐ Hardware
- ☒ Software

122. Having strong computer literacy skills reduces the chances of online annoyances

- ☐ False
- ☒ True

123. When the computer is turned off, RAM loses all of its contents.

- ☒ True
- ☐ False

124. In Computer Literacy, understanding how to diagnose and fix certain problems can save your time and money.

- ☒ True
- ☐ False

125. To browse the internet efficiently, computer literacy skills are essential.

- ☐ False
- ☒ True

126. Why is it important to review the entire exam before starting?

- ☐ To memorize all questions
- ☐ To see how difficult the exam is and give up
- ☐ To waste time before answering questions
- ☒ To understand the structure and set a pace

127. Which of the following is NOT a form of intellectual property?

- ☐ Software
- ☒ Political opinions
- ☐ Painting
- ☐ Music

128. When should you arrive for a test?

- ☐ Exactly on time
- ☐ Whenever you feel like it
- ☐ Five minutes late
- ☒ Arrive early

129. Type of computers that excels at executing many computer programs at the same time.

- ☐ Both mainframes and supercomputers
- ☐ Supercomputer
- ☒ Mainframe Computers
- ☐ Embedded Computers

130. A student finds writing essays challenging but learns basic techniques and uses online tools to improve just enough to pass the class. This is an example of:

- ☐ Quitting from the new situation
- ☒ Modify your skills to get by in the new situation
- ☐ Staying in a new situation without adjusting skills.
- ☐ Refusing the new situation

131. Which of the following devices commonly contains an embedded computer?

- ☐ Typewriter
- ☐ Whiteboard
- ☐ Bookshelf
- ☒ washing machine

132. Which of the following is true about tablets compared to smartphones?

- ☒ Tablets are generally heavier than smartphones.
- ☐ Tablets can make cellular phone calls like smartphones
- ☐ Tablets are lighter than smartphones
- ☐ Tablets cannot be connected to external keyboards

133. Computer literacy helps users to avoid Spam, Adware, and Spyware.

☐ False

☒ True

134. A special type of laptop where its documents and apps are stored in the cloud.

☐ Ultrabook

☐ 2-in-1 PC

☒ Chromebook

☐ Laptop

135. What is the primary role of the CPU in a computer?

☐ To display graphics on the screen

☐ To store files and applications

☒ To control and process all commands from software instructions

☐ To supply power to the computer
